SUMMARY

Passionate Web Developer, fresher skilled in HTML, CSS, JavaScript, and React, seeking an opportunity to start my career in the IT industry. I am interested in building user-friendly, responsive interfaces and continuously learning new technologies to contribute to the company's growth.

TECHNICAL SKILLS

Programming languages: Java, SQL, HTML, CSS, JavaScript.

Frameworks & Libraries: Bootstrap, React Js.

Database: MySQL.

Developer Tools: Git and GitHub.

PROJECTS

Website Development on Ecommerce

Tech Stack: HTML, CSS and JavaScript

- The Object of this project is to create a user-friendly e-commerce platform for seamless product browsing and shopping. Structured homepage with product categories and promotional banners.
- Product listing with pricing, product images & sale tags.
- Add-to-Cart UI with item count increment and decrement option.

Weather Web App

Tech Stack: HTML, CSS and JavaScript.

- A web application that displays real-time weather information for any searched city.
- Implemented city-based search with dynamic DOM rendering. And added basic error handling for invalid or empty city inputs.
- Displays weather icons and conditions for better user experience.

CO-CURRICULAR ACTIVITIES

- Participated in PAPER PRESENTATION on STARLINK Conducted on 24/03/2023 by SSM College of Engineering, Salem.
